Description

STEIN Fixed Vice 100mm: Precision and Stability in Every Use

The **STEIN 100mm Vice** is the indispensable tool for those seeking precision and stability in their industrial work. Designed to offer superior performance, this vice becomes the perfect ally for any workshop or workspace that requires professional and secure tightening.

Manufactured with a **cast steel body**, the STEIN Vice guarantees exceptional durability, resisting the wear and tear of daily use and the demands of the most rigorous jobs. Its robust construction ensures that this tool remains in optimal condition for years, always providing reliable performance.

One of the most outstanding features of this vice is its ability to **firmly clamp to the table** using screws. This design not only makes it easy to install, but also ensures that the vice remains stable during use, allowing the user to work with confidence and precision. Stability is crucial in industrial work, and the STEIN Vice more than meets this need.

The **100mm jaw width** is ideal for a wide variety of applications, from gripping small parts to handling

larger components. This versatility makes the STEIN Vice an essential tool in any work environment, adapting to the specific needs of each project.

- **Durability:** Cast steel body withstands intensive use
- **Stability:** Secure clamping to the table for uninterrupted work
- **Versatility:** 100mm jaw width for various applications
- **Precision:** Professional tightening that guarantees exact results
- **Ideal for industrial work:** Designed to meet the demands of professionals

With the STEIN 100mm Vice, every task is carried out with maximum efficiency and safety, making it a valuable investment for any professional looking for quality and performance in their work tools.
