Description

STEIN Fixed Vice 150mm: Precision and Stability in Every Job

The **STEIN Fixed Vice 150mm** is the indispensable tool for any industrial environment that requires precision and stability. Designed to offer superior performance, this vice becomes the perfect ally for professionals looking for quality and durability in their work tools.

Manufactured with a **cast steel body**, the STEIN Vice guarantees exceptional resistance, withstanding the demands of the most rigorous jobs. Its robust construction ensures a professional tightening, providing a firm and secure hold that minimizes the risk of slipping during use. This feature is crucial to maintain precision in tasks that require a high degree of accuracy.

One of the most outstanding advantages of this vice is its ability to be **fastened to the table using screws**. This design allows for stable clamping, ensuring the tool stays in place even under intense pressure. This stability is essential for carrying out industrial work with confidence, knowing that the equipment will not move a millimetre.

The **150mm jaw width** offers remarkable versatility, allowing you to clamp workpieces of different sizes with ease. This feature is especially useful in environments where materials of various dimensions are handled, making work easier and increasing efficiency.

Ideal for **industrial work**, the STEIN 150mm Fixed Vice is an investment in quality and performance. Its ergonomic design and firm clamping capacity make it an essential tool for any workshop or factory that values precision and stability in its processes. With the STEIN Vice, every project is carried out with the assurance of having a reliable and long-lasting tool.
