Description

Alpen Cobalt Forte Drill Bit 13.00 mm

The 13.00 mm **Alpen Cobalt Forte Drill Bit** is the ultimate tool for those looking for precision and durability in their drilling projects. Designed with a 13.0 mm diameter, this drill bit is self-centering thanks to its specially sharpened tip, ensuring an accurate, slip-free drill start.

Manufactured from cobalt, a material known for its great hardness, this drill bit offers exceptional resistance to breakage and high temperatures, making it ideal for demanding jobs. Its specially treated nitro-oxide cutting edge provides ultra-strength, ensuring a long life even in the most challenging conditions.

The **Alpen Cobalt Forte Drill Bit** stands out for its great chip evacuation capacity, thanks to its deeper spiral, allowing for cleaner and more efficient drilling. In addition, its special sharpening of the slot and tip make it faster, optimizing work time and improving productivity.

This drill bit is suitable for a wide range of materials, including construction steels, alloy steels, stainless steel, copper, brass, aluminum and plastic. Its design makes it suitable for large drilling depths, offering versatility and adaptability in any project.

- Diameter: 13.0 mm
- Self-centering
- Ultra resistant
- Great chip evacuation capacity
- Faster
- Valid for great depths
- Suitable for multiple materials

With the **Alpen Cobalt Forte Drill Bit**, every hole is a guarantee of quality and efficiency.
