Description

Hard Porcelain Drill Bit Ø 8.0 mm

Discover drilling excellence with our Hard Porcelain Drill Bit Ø 8.0 mm, specifically designed to meet the challenges of the toughest materials. This diamond drill bit is the ideal tool for those seeking precision and durability when working with extremely hard stoneware tiles, glass and porcelain.

- **Measurement:** Ø 8 mm
- **Application:** Perfect for materials with a hardness of 9 on the Mohs scale, this drill bit guarantees exceptional performance without the need for cooling. However, it is not suitable for hammer drilling.
- **Effortless precision:** Thanks to its centering tip, this drill bit allows for precise and hassle-free drilling, ensuring a professional finish every time.
- **Improved strength:** The carbide plate integrated into the cutting plate increases resistance to breakage, prolonging the life of the drill bit and ensuring consistent performance.
- **Vibration reduction:** The shortened neck is designed to minimize torque forces, reducing vibrations and increasing comfort during use.
- **Non-slip shank:** Designed to prevent rotation in the chuck, this shank ensures optimal transmission of torque, improving efficiency and safety in every hole.

With our Ø 8.0 mm Hard Porcelain Drill Bit, you will experience a new dimension in drilling hard materials, combining precision, durability and Ease of use makes this a must-have tool for any professional or DIY enthusiast.
