"Light" push button

BJC Iris Estanca mechanism series[View product online](#)**Description**

Weatherproof "light" push button BJC Iris IP44 185017

The **BJC Iris weatherproof** switching mechanisms offer frame protection, featuring an EPDM membrane that protects its entire perimeter and extends to the key via a second membrane in the intermediate piece. This structure provides the assembly with IP44 protection, allowing it to comply with safety regulations for wet locations.

Characteristics of the different components of BJC Iris weatherproof Articulated polycarbonate cover plate:

Incorporates a water expulsion circuit.

Features a treatment to retard the effects of UV rays.

Articulated to offer the best protection against water for the socket.

Socket cover:

Design equipped with a water outlet circuit.

Extruded perimeter that prevents water from entering the socket.

The articulations of the cover act as extra protection, adapting perfectly to the arc and the EPDM membrane bonded to it.

Water expulsion circuit:

The socket base and cover feature a special design with an internal circuit intended to guide water to

the outside, preventing it from penetrating the mechanism.

Specifications

EAN	8421870636359
Manufacturer	BJC
Protection	IP44
Type of installation	Estanco
Piece type	Electrical mechanisms
Series	BJC Iris Estanca
