Description

The AMIG 3821 21182 Double Surface Mount Switch is the perfect solution for your indoor electrical needs. With a maximum capacity of 10A and 250V, this switch guarantees optimal and safe performance at all times.

Its compact 60x60mm design makes it ideal for small spaces, allowing for easy and discreet installation. Made from high-quality materials, this switch offers durability and resistance over time, ensuring long-term and reliable use.

With the AMIG Double Surface Mount Switch, you can control two electrical circuits independently, giving you greater flexibility and convenience in your home or office. Its smooth and precise operation will allow you to turn lights, appliances or other devices on and off with ease and precision.

Don't settle for low-quality switches that can put your safety and that of your family at risk. Trust in the quality and performance of the AMIG 3821 21182 surface-mounted double switch, and enjoy the peace of mind of having a reliable and long-lasting product in your electrical installation.
