Description

The 68x46mm universal linkable flush-mounted box for mechanisms is the perfect solution for installing electrical systems in hollow partitions. Its versatile design and compatibility with Ø20mm tubes makes it an ideal choice for any construction project.

Made from high-quality materials, this box guarantees a safe and efficient installation, providing the necessary protection for electrical mechanisms. Its compact size of 68x46mm makes it perfect for plasterboard projects and linkable systems, adapting to the needs of any installation.

In addition, this universal linkable flush-mounted box has 4 inputs that allow easy connection of cables, making installation work easier. For its assembly, only a 70mm diameter crown is needed, making it even more practical and easy to install.

Don't miss the opportunity to purchase this high-quality universal linkable flush-mounted box, designed to provide safety and efficiency in your electrical projects. Get yours and ensure a professional and long-lasting installation!
