Description

The 3x6 meter multifilament harvesting blanket is the perfect ally to optimize the harvesting process in the field. Made of high-density polyethylene with a dye and stabilizer for sun protection, this blanket offers strength and durability in agricultural work. With a fabric weight of 85 g/m² and a warp/weft composition of 6x6, it guarantees efficient and trouble-free harvesting.

Its practical and efficient design makes it the ideal tool for harvesting olives, almonds and olives. Thanks to its dimensions of 3x6 meters, it covers a large area of land, facilitating the work of farmers and increasing productivity in the field. In addition, its resistance to weather and sunlight ensures a long lifespan, making it a durable and profitable investment.

If you are looking for a quality product that helps you speed up the harvesting of your crops, the 3x6 meter multifilament harvesting blanket is the perfect choice. Don't miss the opportunity to improve your harvesting process with this practical and efficient agricultural accessory.

Specifications
