Description

LOCTITE Adhesive for Tough Plastics is the perfect solution for repairing rigid plastics quickly and effectively. Its liquid formula spreads easily, ensuring practical and precise application every time. Plus, it features a built-in activator and anti-drying safety cap, making it even more convenient and long-lasting.

Ideal for jobs that require strong, long-lasting adhesion on tough plastic materials, this adhesive is the perfect choice for any repair project. Its 4ml + 2g presentation offers greater convenience and performance, ensuring that you have enough product to complete your tasks without problems.

With LOCTITE Adhesive for Tough Plastics, you can repair your favorite plastic objects in a matter of seconds, without having to worry about their durability. Whether at home, at work or anywhere else, this adhesive will become your best ally for all types of repairs on rigid plastics, except Teflon.
