Description

Quilosa's 670ml gun polyurethane foam is an indispensable multi-purpose product in any construction or DIY project. With a capacity of 670 ml, this foam offers excellent adhesion on a wide variety of materials, including wood, metal, plastic and concrete.

In addition to its versatility, this polyurethane foam provides high-quality thermal and acoustic insulation, making it an ideal choice for improving the energy efficiency of any space. Its resistance to moisture makes it perfect for indoor and outdoor applications, ensuring long-lasting and reliable performance.

One of the advantages of this foam is its easy application with a gun, allowing precise control and a professional finish on each project. In addition, it dries quickly, which speeds up the work process and allows the task to progress efficiently.

In short, Quilosa's 670ml gun polyurethane foam is the perfect choice for those looking for a high-quality, versatile and easy-to-use product in their construction and DIY projects. With it, you can achieve impeccable and long-lasting results with every application.
