Description

The Taurus Java 2000 2000W grey horizontal heater is the perfect solution for keeping the atmosphere warm in small spaces. With two power levels, this heater offers the possibility of adjusting the temperature according to the user's needs. In addition, it has a fan function that allows it to be used in hot weather.

Thanks to its adjustable thermostat, the Java 2000 heater guarantees precise temperature control, avoiding overheating and providing a comfortable environment at all times. Its indicator light indicates when the heater is in operation, providing greater safety.

The compact and elegant design of this heater makes it an ideal complement for any space, while its cable reel makes it easy to store and transport. With the capacity to heat surfaces of up to 20 m², the Taurus Java 2000 heater is an efficient and practical option for keeping warm in homes, offices or any other place where extra heat is needed.
