Description

The Orbegozo SP-6500 ceramic heater is the perfect solution to keep your home warm and comfortable during the coldest months of the year. With a power of 2000W and two heat levels (1000W/2000W), this heater is capable of quickly heating any room, providing a cozy atmosphere in a short time.

One of the most outstanding features of this heater is its daily and weekly programming, which allows you to adjust the temperature according to your needs and schedules. In addition, its digital thermostat and remote control make it easy to use and control, allowing you to enjoy a warm environment without having to get up from the sofa.

The compact design of the Orbegozo SP-6500 makes it ideal for any space, with dimensions of 52x20x12.5cm and the possibility of fixing it on the wall to save space. Its PTC elements ensure even heat distribution, while its LED panel and fan mode make it versatile and functional.

In addition, this heater has a safety system that includes a complete disconnection and the ability to detect open windows, which helps to optimize energy consumption and ensure safety at all times. With the Orbegozo SP-6500, you will enjoy comfortable and safe heat in your home.

Specifications

EAN	8436044538803
Manufacturer	ORBEGOZO
Power (W)	000

Maximum power (W)	2000
