Description

The Ibili 773100 fresh pasta maker is the perfect complement for lovers of home cooking. Made of chrome-plated metal, this machine has a sturdy and durable design that guarantees its use over time. Its clamp to securely fix it to the table ensures greater stability during use, while its removable head allows for easier and more comfortable cleaning.

One of the most outstanding features of this machine is its graduated regulator, which allows you to adjust the thickness of the dough according to your preferences, allowing you to create different types of pasta with ease. Whether you prefer thinner or thicker pasta, this machine offers you the versatility you need to experiment in the kitchen.

With the Ibili 773100 fresh pasta maker, you can prepare homemade pasta easily and professionally in the comfort of your home. Surprise your family and friends with delicious homemade pasta recipes, and enjoy the satisfaction of cooking with a product of exceptional quality and performance.
