Description

The 5kg No. 7 Galvanized Wire Bundle is the perfect choice for construction, agriculture and craft projects that require strength and durability. With a diameter of 1.2 mm and a length of 567 metres, this wire offers optimal performance in various applications.

Its galvanized coating guarantees protection against corrosion, making it ideal for use outdoors and in harsh weather conditions. This ensures that the wire maintains its structural integrity over time, without compromising its strength.

In addition, its high resistance makes it a reliable choice for jobs that require quality and precision. Whether for building fences, fixing structures or for gardening projects, this No. 7 galvanized wire is the perfect tool to achieve professional results.

No matter what your project, this galvanized wire bundle will give you the confidence and security you need to carry it out successfully. Get yours and discover the quality and versatility that only this product can offer you!
