Description

The T2B multi-point security lock with 14 mm nickel-plated steel bolts is the perfect solution to ensure the protection of your home. Its U-shaped steel front for RF doors provides exceptional resistance to potential intrusion attempts, while its anti-return system and steel strike plates ensure a secure closure at all times.

With a standard height of 2028 mm, this lock is also available in an optional 2035 mm version to suit your specific needs. In addition, it is compatible with the T60 cylinder and the E300L escutcheon, adding an extra layer of security to your door.

This model is available in different configurations, including versions with 3, 5 or multiple locking points, allowing you to choose the option that best suits your security requirements. Leave nothing to chance when it comes to protecting your family and your possessions, trust the T2B security lock to keep your home safe at all times.
