Description

The MIARCO 6461 Teflon PTFE thread roll is the perfect solution for sealing plastic and metal threaded joints efficiently and durably. With a length of 175 metres, this roll of thread guarantees a watertight seal thanks to its 100% PTFE monofilament, which adapts perfectly to the thread during installation.

One of the most outstanding features of this product is its practical dispenser with a 360-degree cutting system and integrated lubricant, which makes it easy to apply and ensures a clean and precise seal. This makes it the ideal choice for both professionals and hobbyists looking for professional results.

In addition, the MIARCO 6461 Teflon PTFE thread roll offers dynamic sealing, meaning that it remains effective even under conditions of movement and vibration. This ensures greater durability and reliability in sealing threaded joints, preventing leaks and pressure losses.

In short, this product combines quality, practicality and effectiveness in a single roll of thread, making it an essential tool for any plumbing or DIY job that requires a secure and long-lasting seal.
