Description

The BPS MCM anti-bumping security cylinder is the perfect solution to protect your home or business from potential intruders. Made of durable brass, this R15 model offers maximum protection against theft techniques such as bumping, drilling and lock picking.

Its innovative design has 6 active pins and stainless steel springs that guarantee the security of your door. In addition, it includes 5 long-neck keys so you can have backup copies and share with your family or employees.

The MCM-16E8 key copy system ensures accurate and secure reproduction of your keys, avoiding possible errors or vulnerabilities in the security system. This cylinder is ideal for high security doors, providing peace of mind and protection for your loved ones and belongings.

With guaranteed tamper resistance, the BPS MCM anti-bumping security cylinder is the perfect choice for those looking for maximum protection without compromising quality. Don't risk the safety of your home, invest in a reliable and durable product like this one.
