Description

The 150mm galvanised rotating cap is the perfect solution for industrial applications requiring smooth and efficient rotation. Its robust and durable design ensures optimum performance even in demanding environments.

Thanks to its galvanisation, this rotating cap is highly resistant to corrosion, ensuring a long life and minimal maintenance.

This cap is ideal for the rotation of loads of moderate weight, making it versatile and functional in a wide range of industrial applications.

Its simple and efficient design makes it easy to install and maintain, ensuring quick and easy installation as well as hassle-free maintenance.

Made from high quality galvanised steel, this rotating cap ensures long-term strength and durability. In short, the 150mm Galvanized Swivel Cap is the perfect choice for those looking for a reliable and long-lasting product for their industrial needs. Its corrosion resistance, ability to handle light to medium loads, easy installation and maintenance, and high manufacturing quality make it a superior choice on the market.

Specifications

Colour	Grey
Diameter	15cm
EAN	8430942329648
Material	Acero galvanizado
Measures	Ø15cm
