Description

The Steelpro 1988-OE hearing protection headset is the perfect solution to protect your ears in moderate noise environments. With 27dB attenuation, this headset ensures significant sound reduction, keeping your ears safe and protected.

Its lightweight, dielectric design makes it comfortable to wear during long work days, with no metal components that can cause discomfort. In addition, it is height-adjustable and has a folding harness that makes it compatible with helmets and face shields, offering unique versatility.

Thanks to its innovative design, this headset improves visibility and sound dispersion, allowing you to maintain clear and efficient communication in noisy environments. It is ideal for activities in light industry, construction, workshops, outdoor work and food, where hearing protection is essential.

Don't compromise your hearing health in noisy environments, invest in the Steelpro 1988-OE protective headset and enjoy superior protection without sacrificing comfort and functionality.
