Description

The universal double flush button for cisterns model 08807P CIS is the perfect solution to optimize water consumption in your home. With two flush options, full or partial, this button allows you to control the amount of water used in each flush, thus contributing to water savings and bathroom efficiency.

This button is compatible with most standard cisterns, so its installation is quick and easy. In addition, it is made of durable materials that guarantee its resistance and durability over time.

Thanks to its innovative design, this double flush button not only allows you to save water, but also gives you the convenience of being able to choose between two flush options according to your needs. Whether for a full or partial flush, this button adapts to your preferences and helps you maintain an efficient and sustainable bathroom.

Don't wait any longer and buy the universal double flush button for cisterns model 08807P CIS now. Turn your bathroom into a more eco-friendly space and contribute to caring for the environment while enjoying all its advantages and benefits.
