Description

The TESA E3720-23 BATON lock is the perfect solution to ensure the security of your home or business. With a nickel-plated latch and a steel tilting lever, this lock offers a superior level of security. In addition, its stainless steel front and strike plate provide exceptional resistance to corrosion, ensuring its durability over time.

The 13.2 mm Euro profile cylinder comes with three keys, giving you the peace of mind of having backups in case of loss. In addition, it includes two nylon escutcheons and a cylinder fixing screw for easy and secure installation.

This lock is ideal for both interior and exterior doors, thanks to its versatile and resistant design. The stainless steel strike plate guarantees a long service life, without compromising the security of your property.

In short, the TESA E3720-23 BATON lock combines high security, durability and ease of installation in a single product. Don't miss the opportunity to protect what you value most with this top-quality lock.
