Description

The TESA E3720-28 Baton hook lock is the perfect solution to ensure the security of your home or business. With an innovative design that includes a latch and reversible lever, this lock offers extra protection against potential intruders.

This product comes equipped with a 13.2 mm Euro profile cam cylinder that provides an additional level of security, along with three keys so you can easily access your property. In addition, it has two nylon escutcheons and a fixing screw for easy and secure installation.

The lock is made of high quality materials, such as the nickel-plated latch, the laminated steel lever and the stainless steel front and strike plate, which guarantees its durability and resistance to possible tampering attempts.

Thanks to its specific design for sliding doors, this lock is the ideal choice to protect your home or business effectively and reliably. Don't miss the opportunity to purchase this high-quality product that will give you the peace of mind you need.
