Description

The 100-meter roll of parallel audio cable in black and red is the perfect solution for your sound installation needs. With 2x0.75 mm conductors, this cable guarantees high transmission quality and durability, ensuring optimal performance in home or professional audio systems.

Its black and red design makes it easy to identify polarity, making it ideal for speaker connections and electrical installation projects. In addition, its 100-meter length gives you the flexibility to cover large distances without sacrificing sound quality.

This parallel audio cable stands out for its strength and reliability, making it the perfect choice for installations that require a high level of performance. Whether you're building a sound system at home or in a professional environment, this cable guarantees interference-free audio transmission and a stable connection.

Don't miss the opportunity to purchase this high-quality parallel cable that will allow you to enjoy crisp, clear sound in your audio projects. Get it now and take your sound installations to the next level!

Specifications

Colour	Black, Red
EAN	8435240701295
Length	100m
Material	PVC, Copper

Measures	100m
Cable cross-section (mm ²)	2x0,75mm ²
Nominal voltage (V)	300
Type of cable	Audio
