Description

The 20x3mm galvanized welded ring is a highly resistant and durable product, made of quality steel to guarantee its performance in industrial, agricultural or construction applications. Its dimensions of 20x3 mm offer a thicker interior measurement, which increases its resistance and safety in use.

Thanks to its galvanized coating, this ring is resistant to corrosion, making it ideal for outdoor use without compromising its performance. Its versatility and reliability make it a reliable option for multiple professional uses, ensuring optimal performance in any situation.

Whether for holding heavy loads, securing structures or any other application that requires strength and durability, this galvanized welded ring is the perfect choice. Its superior quality and advanced features make it a safe and efficient option for any project that requires a high-quality, high-performance product.

Specifications

Colour	Grey
Diameter	20mm
EAN	8429578760208
Material	Acero galvanizado
Measures	Ø20x3mm
Depth	3mm
