Product sheet

Galvanized welded ring 30x3.5mm

Brand: ALBERTO MUÑOZ

Reference: ALM 3397.0012

Heavy duty galvanized welded ring, ideal for industrial and construction applications. Made of galvanized steel for durability and corrosion resistance. Dimensions of 30x3.5 mm, with inner measurement plus thickness, ensuring a precise and secure fit. Perfect for use in chains, lashings and fastening systems. Reliable and versatile product for multiple needs.

Description

The 30x3.5mm galvanized welded ring is a high-quality, high-strength product designed for industrial and construction applications that require a durable and reliable component. Made of galvanized steel, this ring offers greater resistance to corrosion, making it ideal for use in outdoor environments or in contact with chemical agents.

Its 30x3.5mm dimensions ensure a precise and secure fit, making it a reliable choice for chains, tie-downs, and fastening systems. Its welded design ensures greater strength and durability, making it perfect for applications that require a strong, long-lasting component.

This galvanized ring is a versatile product that adapts to multiple needs, offering exceptional performance in different environments and working conditions. Its quality and reliability make it an ideal choice for those looking for a durable, high-performance product for their industrial or construction projects.

Specifications

Colour	Grey
Diameter	30mm
EAN	8429971040327
Material	Acero galvanizado
Measures	Ø30x3,5mm
Depth	3,5mm
