Description

The 40x5mm Galvanised Welded Ring is a highly resistant and durable product, ideal for robust fixings in different applications. With an inner diameter of 40mm and a metal thickness of 5mm, this ring guarantees a secure and reliable hold.

Made from galvanised steel, this ring offers optimal protection against corrosion, making it perfect for resisting the elements and ensuring long-lasting durability. Its galvanised finish also gives it an attractive and professional aesthetic appearance.

Thanks to its strength and manufacturing quality, this welded ring is perfect for multiple uses, from construction and carpentry work to applications in the home or in DIY projects. Its versatility and reliability make it an ideal choice for any task that requires a solid and long-lasting fixation.

If you are looking for a strong, durable and high-quality product for your projects, the 40x5mm Galvanised Welded Ring is the perfect choice. You will not regret investing in this ring that guarantees exceptional performance and a long service life.

Specifications
