Description

The 50x6mm galvanized welded ring is a highly resistant and durable product, designed for industrial and construction applications that require reliable and quality materials. Made of galvanized steel, this ring offers greater resistance to corrosion, making it ideal for use in outdoor environments or in contact with chemical agents.

Its internal measurements of 50 mm and a thickness of 6 mm make it a robust option and capable of supporting heavy loads, guaranteeing safety in use. This galvanized welded ring is perfect for projects that need a strong and reliable component, as its high-quality construction ensures optimal performance over time.

Whether for fastening materials in construction, manufacturing metal structures or any other application that requires strength and durability, the 50x6mm galvanized welded ring is the perfect choice. Trust this product for your most demanding projects and ensure an impeccable result thanks to its advanced features and outstanding benefits.

Specifications

Colour	Grey
Diameter	50mm
EAN	8429578760505
Material	Acero galvanizado
Measures	Ø50x6mm

Depth	6mm
