### Description

The M14 9/16 Galvanized Straight Shackle is an indispensable accessory in industrial and marine applications that require strength and durability. Made from galvanized steel, this shackle offers superior protection against corrosion, making it ideal for demanding environments.

Its robust design ensures security under heavy loads and reliable connections, making it a reliable choice for use in chains, cables and anchoring systems. With an exceptional load capacity, this shackle is perfect for applications that require strength and reliability.

This shackle meets high quality standards, ensuring optimal performance even under the most demanding conditions. Its galvanized finish ensures a long life and superior corrosion resistance, making it a long-lasting and reliable investment for any project.

In short, the M14 9/16 Galvanized Straight Shackle is the perfect choice for those looking for a strong, durable and reliable accessory for their industrial and marine applications. With this shackle, you can be sure that your connections will be secure and reliable at all times.

### Specifications

|          |                   |
|----------|-------------------|
| EAN      | 8426241313600     |
| Material | Acero galvanizado |
| Measures | M14 9/16"         |
