Description

The M22 7/8 Galvanized Straight Shackle is an indispensable accessory in industrial and cargo applications that require strength and durability. Manufactured from galvanized steel, this shackle offers increased protection against corrosion, making it ideal for demanding environments where a high level of weather resistance is required.

Its robust design ensures safety in heavy duty work, providing a firm and reliable connection in construction, transportation and lifting projects. Compatible with chains and steel cables, this shackle is a versatile and reliable solution to ensure safe connections in a variety of applications.

With a load capacity of M22 7/8, this shackle is capable of supporting heavy weights without compromising its structural integrity. Its straight design makes it easy to use and ensures a secure connection every time.

In short, the M22 7/8 Galvanized Straight Shackle is the perfect choice for those looking for a strong, durable and reliable accessory for their industrial and cargo projects. With this shackle, you can be sure that your connections will be safe and secure at all times.

Specifications

EAN	8426241313808
Material	Acero galvanizado
Measures	M22 7/8"
