Description

The 3mm Galvanised Single Flat Cable Tie is the perfect solution for securing cables efficiently and robustly. Made from galvanised material, this cable tie offers durability and corrosion protection, making it an ideal choice for applications in electrical installations, metal structures or DIY projects.

Its compact design makes it easy to use in tight spaces, ensuring a firm and secure fit on small diameter cables. This makes it a versatile and practical tool for any project that requires the secure fixing of cables.

With the 3mm Galvanised Single Flat Cable Tie, you can be sure that your cables will be effectively protected and secured, preventing possible damage or accidents. Its strength and durability guarantee optimal performance over time, making it a safe and reliable investment for your cable fixing needs.
