[View product online](#)**Description**

series **Simon 27** is a series of mechanisms Simon more versatile and colorful. It has a wide range of frames and interchangeable covers for optimum adaptation to the needs of each project.

Although the different variants of the series, the mechanism is shared, the frames have a wide range of possibilities.

On the one hand is the **Simon 27** classic series, with intermediate frames and external trim, of more rounded finish.

Then there are frames **series Simon 27 NEOS**, some frames finished in matt glass or shiny, with soft and bold colors giving it a completely different look to the series classic.

And finally the range **play** that changes the appearance of the frames, available in two colors, white and ivory, but with many interchangeable covers the simplest to the most daring and wild.

Moreover, this mechanism also applies to the **Simon 44 Aqua**, Simon series watertight series.

Specifications

Colour	White
