Description

Illuminate your spaces intelligently and efficiently with the Lucera Blanco recessed ceiling detector. This discreet and elegant device integrates perfectly into any environment, providing an automated and energy-efficient lighting solution.

With a 360° detection angle and a radius of up to 20 meters, the Lucera Blanco accurately detects motion, activating the lighting only when necessary. Its PIR (passive infrared) sensor guarantees reliable detection and minimizes false alarms.

Made of tough and durable PC, this detector withstands extreme temperatures, from -20°C to 40°C. It is compatible with voltages from 220V to 240V and offers an adjustable turn-on time from 10 seconds to 30 minutes, allowing you to customize the lighting duration. In addition, its ambient light level is adjustable between 3 and 2000 lux, adapting to the lighting conditions at any given time. With a standby consumption of only 0.45W and IP54 protection, the Lucera Blanco is an efficient and safe option for your home or business. It supports a maximum power of 1200W for incandescent bulbs and 800W for LED and low consumption bulbs.

Specifications

Opening angle	360
Colour	White
EAN	8433373088122

Material	Policarbonato
Protection	IP54
