Description

Light up your adventures with the Rechargeable Solar LED Lantern, your ideal companion for camping and outdoor activities. With a powerful 300-lumen light and 23 SMD LEDs, this lantern provides bright and efficient lighting up to 50 meters away.

Enjoy multiple lighting modes: high, low, flash, and warm light, to suit your needs. Its built-in solar panel allows you to recharge it with sunlight, while the USB-C port offers fast and convenient charging. It also works as a power bank to charge your mobile devices in an emergency.

Designed for durability, this lantern features durable ABS and PS materials, IP44 splash protection, and a hook for easy hanging. Its retractable design and handle make it easy to carry and store. It includes an 18650 lithium battery and an on/off button for easy use. Get ready for adventure with this versatile and reliable lantern!
