Description

The 0.250 L Rust Transformer is a highly effective chemical product that converts the rust layer into a black film, neutralizing corrosion and providing lasting surface protection. Its quick drying time in just 15 minutes and the possibility of recoating in 3 hours make it ideal for both indoor and outdoor applications. With a 0.250 L capacity, this rust transformer is capable of covering up to 15 m² of surface area, providing effective corrosion protection. Its advanced features include corrosion neutralization and lasting surface protection, making it a reliable choice for rust prevention and treatment on different types of surfaces.

Specifications

Colour	Black
EAN	8429656067410
Country of origin	Spain
