### Description

Simon's white 27 Series narrow crossover is a mechanism with a switch cover that features a quick-connect terminal system. With a capacity of 10A and 250V, this 22.5 x 45 mm product is ideal for electrical installations that require an elegant and functional design. Its white color gives it a clean and modern look, while its Simon 27 model guarantees quality and durability. Additionally, its quick-connect terminal feature facilitates installation and maintenance of the electrical system. With a compact and efficient design, this narrow crossover is perfect for optimizing space in any electrical project. Consisting of a mechanism and a narrow-crossover switch cover, this high-quality product guarantees optimal performance in any application.

### Specifications

|                   |                       |
|-------------------|-----------------------|
| High              | 4,5                   |
| Width             | 2,25                  |
| Colour            | White                 |
| EAN               | 8412852000152         |
| Measures          | 2,25x4,5x4,5          |
| Country of origin | Spain                 |
| Depth             | 4,5                   |
| Piece type        | Electrical mechanisms |
| Series            | Simon 27              |
