Description

The ergonomic 4-way splitter is the perfect solution for connecting up to four appliances to a single tap at the same time, thanks to its clear on/off valves that allow precise control of the water flow. Made from a durable fiberglass composite, this splitter fits various tap sizes, making it highly versatile. Its ergonomic design makes it easy to use, and installation is quick and easy. Compatible with 1/2", 3/4", and 1" taps, this splitter is an excellent choice for optimizing water use in gardens, patios, or any outdoor space. Available in an attractive black/blue color, this splitter combines functionality and durability in a single product.

Compatibility: G1/2, G3/4, and G1

Type: 4-way splitter

Color: Black/Blue
