## Description

The ideal digital irrigation timer, with a G3/4" - G1" connection, is the perfect solution for automating the irrigation of your garden or orchard. Its control module and legible display make programming easy, allowing you to set individual watering days and times, either automatically or manually. In addition, this advanced device informs you of low battery levels, ensuring continuous and efficient operation. With the ability to program up to two daily cycles, it guarantees optimal watering for your plants, regardless of the weather conditions. Equipped with a 9V 6LR61 battery (not included), this digital irrigation timer is the ideal tool for keeping your garden always green and healthy.
