Description

The Akhuo LED insect trap is an effective and elegant solution for indoor insect control. Featuring two 4.5W T5 UV fluorescent tubes, this lamp has a working range of 50m², attracting insects to the light and trapping them on an adhesive film. Its white design and wall-mounted fixture make it discreet and easy to integrate into any environment. Furthermore, its LED operation ensures lower energy consumption. Made of flame-retardant white ABS, this lamp does not use chemicals, odors, or liquids, making it safe for use in homes, stalls, and public places. Connected to 220-240V ~ 50Hz, it is an efficient and practical option for keeping spaces free of unwanted insects.

Specifications

Timer	No
Frequency	50
High	24cm
Bulb not included	Yes
Width	39cm
Opening angle	80
