Description

The professional aluminum utility knife with automatic locking system is a tool designed to offer precision, safety, and durability with every cut. Its durable aluminum body features a non-slip area for a comfortable and secure grip. The 18mm SK2 steel blade, with a 65HRC hardness rating, provides clean and precise cuts every time. The automatic lock ensures safety during use, preventing accidental blade slippage. In addition, its quick-change blade mechanism saves time and maximizes productivity. With a hook hole, this utility knife is easy to carry by hanging it on your belt or work bag. Ideal for precision work, it is available in two different sizes and blade widths to suit your needs.
