Description

The 2-Pole Schuko Socket with Grounding is a high-quality socket designed to offer safety and efficiency when connecting electrical devices. With a capacity of 16 Amps and 250 V, this Schuko socket is ideal for cables up to 10 mm in diameter. Its white color gives it an elegant and discreet appearance, while its child protection system ensures safety in the home. It also features an internal clamp that holds the cables and reduces stress on the terminals, prolonging the life of the socket. The assembly instructions are simple and clear, making installation easy. Also known as a Schuco socket, this product is an excellent choice for any home or office that requires a safe and reliable electrical connection.
