### Description

The Magefesa Pressure Cooker Cone is an essential accessory for ensuring safe and controlled cooking in pressure cookers. Made of metal resistant to high temperatures and pressure, this cone is highly durable and resistant to wear and corrosion. Its safe and reliable design prevents overpressure in the cooker, ensuring precise and even cooking. It also allows for precise regulation of internal pressure, ensuring controlled and optimal cooking. Compatible with Magefesa pressure cookers, this cone is also known as the safety screw, internal pressure regulator, among other names. With the Magefesa Pressure Cooker Cone, you can enjoy safe, high-quality cooking at all times.

### Specifications
