Description

The Professional Digital Multimeter with LCD display is a compact and lightweight measuring instrument, ideal for professionals and hobbyists requiring accurate electrical measurements. Measuring 126 x 70 x 26 mm and weighing only 108 g (including battery), it is easy to handle and store, perfect for use in the field or in the workshop. The 3.5-digit LCD with a 1999-point display and 0.5" character height provides a clear, easy-to-read display. With 19 measuring ranges for direct current (DC) and alternating current (AC), this multimeter guarantees flexibility and accuracy in a variety of tasks. Its high accuracy of ± 0.5 ensures reliable results with minimal tolerances. It operates on an easy-to-replace 9V battery (NEDA 1604, 6F22), making it a versatile and reliable instrument for electrical measurements.
