Description

Hot cayenne pepper seeds (1.5 grams) are ideal for those looking to grow their own hot peppers at home. This variety of chili pepper (Capsicum annuum) loves warm climates, so it is recommended to sow in a protected environment and then transplant the plants when the temperature does not drop below 15°C. The elongated, hanging fruits produced by this variety have a typical spicy flavor and change color from deep green to bright red when fully ripe. With an average harvest duration of 150-180 days, these seeds require a sowing depth of 1-2 cm and a germination temperature of 18-35°C. With a sunny exposure and sowing distances of 40 cm between plants and 80 cm between rows, these seeds come in a heat-sealed bag to increase the chances of flowering. Get these spicy cayenne pepper seeds and enjoy your own spicy peppers at home!

Specifications

EAN	8435450442162
Measures	1,5g
Weight (kg)	0,006
