Description

The WOLFPACK 10-120A Inverter Welding Kit is a powerful and versatile tool for welding jobs. With a power of 5.2 kW and an input current of 24 A, this equipment is capable of handling a wide range of welding tasks. Its compact and lightweight design makes it easy to transport and use in different work environments. It also features thermal protection and a power factor of 0.7 to ensure optimal and safe performance. With the ability to adjust the welding current from 10 to 120 amps, this kit is suitable for a variety of electrodes, including rutile, basic, stainless, and cast iron. In short, the WOLFPACK 10-120A Inverter Welding Kit is a must-have tool for any professional seeking quality and performance in their welding jobs.

Specifications

Frequency	50, 60
High	20,5cm
Rated current (A)	10, 120
Width	12,5cm
Energy classification	F
Colour	Black, Red
EAN	8435450468957
Long	21,5cm
Material	Metal, Polímero
Measures	12,5x21,5x20,5cm
Weight (kg)	4,178
Battery included	Yes
Protection	IP21S
Adjustable	Yes
Current type	AC
