

## Product sheet

## Emuca Set of 2 side spacers for Quartz frame, Plastic, Titanium, 2 units

Brand: EMUCA

Reference: EMUCA 7132052

- Side spacer to be installed with the Quartz pull-out frame in wardrobes with hinged or sliding doors.
- A spacer is required on the side of the wardrobe where it meets the door and is installed where the guide goes. Its function is to leave a 16mm space between the frame and the side of the wardrobe so that it does not hit the door when the frame is opened.
- The spacer is first installed to the wardrobe with Ø3.5x45mm screws, then the guide can be pre-mounted on the spacer with some clips that are included and then the assembly is joined to the side with Ø3.5x35mm screws.
- Includes 2 side spacers, 8 Ø3.5x45mm screws and 4 Ø3.5x35mm screws.
- It is made of plastic with a titanium finish (RAL 7039).

### Description

The Quartz side spacer is designed to be installed in cabinets with hinged or sliding doors, along with the Quartz pull-out frame. A spacer is required on the side of the cabinet where it meets the door and is installed where the guide rail is located. Its function is to leave a 16mm gap between the frame and the side of the cabinet so that it does not hit the door when the frame is opened.

The spacer is first installed to the cabinet with Ø3.5x45mm screws. The guide can then be pre-mounted on the spacer with the included clips, and then the assembly is attached to the side with Ø3.5x35mm screws. It is made of plastic with a titanium finish and stands out for its versatile design, which allows it

to be used on both the right and left sides of the module.

**Specifications**

|              |               |
|--------------|---------------|
| High         | 6,5           |
| Width        | 34            |
| Colour       | Titanio       |
| EAN          | 8432393347431 |
| Manufacturer | EMUCA         |
| Material     | Plástico      |
| Weight (kg)  | 0,005         |
| Depth        | 0,265         |
