Tungsten carbide edge stone drill bit, ø7.00 x 100 mm

Brand: WOLFCRAFT

Reference: EDM 16789

High-quality drill bit with a tungsten carbide cutting edge, ideal for drilling stone. With a diameter of 7 mm and a working length of 60 mm, this drill bit guarantees optimal performance and durability. Its 130° point angle and hardness make it a reliable and precise tool for construction and DIY work.

Description

The ø7.00 x 100 mm tungsten carbide tipped stone drill bit is a high-quality, durable tool, ideal for drilling hard materials such as stone, concrete, and ceramics accurately and efficiently.

- ø7.00 mm diameter
- 100 mm total length
- 60 mm working length
- 130° point angle
- Tempered material for durability

This drill bit is designed with a tungsten carbide cutting edge that guarantees greater wear resistance and a longer lifespan, allowing clean and precise drilling in all types of stones and hard materials. Its 130° point angle facilitates penetration into the material, avoiding deviations and ensuring a professional finish in every drilling. With a total length of 100 mm and a working length of 60 mm, this drill bit is perfect for deep drilling in stone and concrete. Its tempered material provides greater resistance to heat and friction, making it ideal for intensive and prolonged use without losing its sharpness or effectiveness. In short, the 7.00 x 100 mm tungsten carbide-tipped stone drill bit is an essential tool for professionals and amateurs looking for precise, high-quality results when drilling in hard materials.

Specifications

EAN	4006885770706
Manufacturer	WOLFCRAFT
Material	Carburo
