Description

The Matabi POLMAX manual duster is a tool designed to facilitate the application of powdered products, such as sulfur, diatomaceous earth, and various insecticides or fertilizers. With a 9-liter capacity, this duster allows for efficient and controlled handling of treatments in the garden or on crops.

- Capacity: 9 liters, suitable for prolonged applications.
- Tube-shaped outlet and adjustable diffuser, which allows precise distribution of the product.
- Wide filling mouth, making it easy to load without the risk of spills.
- Hermetic seal on the lid, which provides security during storage and use.
- Adjustable powder dispenser, which allows you to adjust the amount of product applied according to your needs.
- Suitable for the application of diatomaceous earth, an ecological powder insecticide that controls pests effectively and without leaving toxic residues.
