Box 50 Rocker Arm Stud M4 Index

Brand: ILARGI

Reference: ALM 3173.0160

This component enables adjustment and stabilization in a variety of mechanical applications. Its efficient design facilitates oscillating motion, optimizing the operation of systems requiring balancing precision. Its robust construction ensures durability and reliable performance in demanding environments.

Description

The Index M4 stud rocker arm box of 50 is a versatile and efficient solution for applications requiring a precise fit and secure hold. Designed to deliver optimal performance in a variety of configurations, these rocker arms are ideal for industrial and construction environments where reliability is critical.

- **Material:** Made of high-strength steel, ensuring durability and corrosion resistance.
- **Size:** M4 stud, suitable for a wide range of uses in assemblies and fixings.
- **Design:** Tilting rocker arm allows dynamic adjustment, making it easy to adapt to different surfaces and working conditions.
- **Load Capacity:** Withstands moderate loads, ensuring stable performance in fixing applications.
- **Installation:** Easy to install, reducing assembly time and improving work efficiency.
- **Applications:** Suitable for machinery, construction equipment, and DIY projects that require a firm hold and adjustable.

Specifications

EAN	8423533206305
