Description

The Tayg 20/30 litre drum tap is a practical and functional solution for easy pouring of liquids from large-capacity drums. Designed to offer a controlled and efficient flow, this tap is suitable for a variety of applications, from domestic to industrial use.

- **Compatibility:** Specifically designed for 20 and 30 liter drums, ensuring a perfect fit.
- **Material:** Made of resistant plastic, which guarantees durability and resistance to corrosion.
- **Ergonomic design:** It has a comfortable handle that makes it easy to open and close the tap with one hand.
- **Controlled flow:** It incorporates a system that allows you to regulate the flow of liquid, avoiding spills and waste.
- **Easy installation:** It is quick to assemble and does not require additional tools, allowing immediate use.
- **Versatility:** Suitable for non-corrosive liquids, making it useful in different contexts, such as watering gardens or storing cleaning products.
- **Dimensions:** Compact and lightweight, making it easy to handle and store.
