Description

The T6TS 40LC round cylinder for Tesa TS locks is a high-security device designed to offer robust protection against tampering attempts. Its construction and advanced technology guarantee a suitable level of security for residential and commercial applications.

- Model: T6TS 40LC
- Type: Round cylinder for Tesa TS locks
- Material: 6 nickel silver anti-pick pins, which provide greater resistance to unauthorized opening techniques
- Patented anti-bumping system, which prevents the use of specific tools to open the cylinder without the appropriate key
- Anti-drill protection, designed to resist attacks with drills and piercing tools
- Certification according to EN 1303 standard, which ensures that the product meets established industry safety and quality standards
